

Syncing between Kidspiration® and Inspiration® for Palm OS®

You can sync to move Kidspiration documents to handheld devices running Inspiration® for Palm OS®. You can also open documents created in Inspiration for Palm OS in Kidspiration.

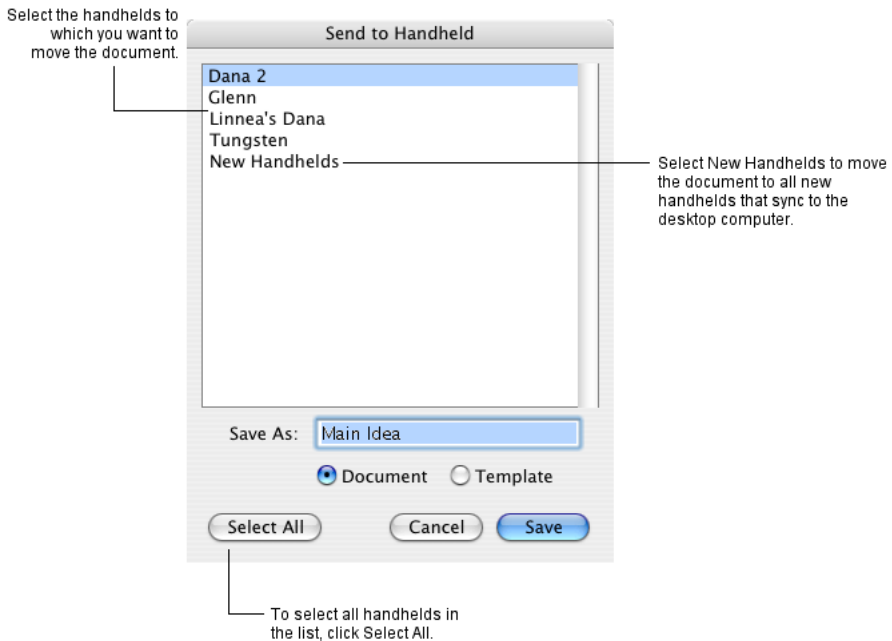

Moving a Kidspiration document to a handheld device

Kidspiration 2.1 (and later) can save documents so that they can be opened on a handheld device running Inspiration for Palm OS.

Note: Some Kidspiration-only features and formatting may be lost when moving a document to Inspiration for Palm OS. In particular, SuperGrouper® shapes, Teacher symbols, Symbol prefix, locked items and recorded sounds are not supported in Inspiration for Palm OS.

1. On the **File** menu, choose **Send to Handheld**.
2. In the list, select the handheld devices to which you want to move the document.
 - To move the document to handheld devices that have not yet been synced to this desktop, select **New Handhelds**.
 - To select all handheld devices in the list, click the **Select All** button.
3. Choose a format for the document.
 - To save the file as an Inspiration document, choose **Document**.
 - To save the file as an Inspiration template, choose **Template**.
4. In the **Save As** box, enter the name of the document.

5. Click **Save**.

6. Sync your handheld (or handhelds).

7. On the handheld device, start Inspiration for Palm OS. On the **File** menu, choose **Open** and select the document in the list.

Opening a handheld document in Kidspiration

You can open a document created with Inspiration for Palm OS in Kidspiration.

1. Sync your handheld.
2. Start Kidspiration 2.1 (or later).
3. On the **File** menu, choose **Open from Handheld**.
4. On the **From** menu, select the handheld where you created the document you want to open.

5. To open the document, select it in the list, and then click **Open**.
