Improve writing and thinking skills

Introducing Webspiration Classroom service, the online writing, visual thinking and collaboration tool for students and teachers. Teach necessary concepts and skills to help students write effectively, evaluate and synthesize information, and improve performance on Language Arts assessments.

Engage students and extend learning time through collaboration and student-teacher interaction, anytime and anywhere. Assignments and work are always available, automatically saved, and securely stored online. Webspiration Classroom’s proven visual thinking and outlining strategies give students a framework to brainstorm ideas, gather and organize information, build comprehension, and develop well-written essays, papers and reports—increasing their achievement in Language Arts and across the curriculum.

Teach and Reinforce Writing and Critical Thinking Skills
With Webspiration Classroom, students use visual thinking and outlining techniques to develop writing skills and analyze, synthesize and comprehend information. Applying proven learning methods such as webbing, concept mapping, and graphic organizers, students learn to write and think more effectively, increasing their achievement across the curriculum.

Engage Students with Collaborative Learning
Students interact with classmates and teachers to develop greater knowledge and gain understanding. Students actively engage in learning as they collaborate on group projects, share documents for peer review, and receive guidance from teachers throughout the entire learning process. Webspiration Classroom incorporates everyone’s contributions and feedback in one document, keeping the process organized as students produce and publish their work.

Extend Learning Time and Facilitate Student-Teacher Interaction
Collaboration, individual work and peer review are done at school, at home or anywhere the Internet is available. Assignments can be delivered, revised, evaluated and returned online, keeping work accessible and organized. This streamlined work process between teachers and students increases instructional time and keeps the focus on learning.

Optimize School and District Technology Resources
Webspiration Classroom helps schools and districts make the most of their resources while providing a safe, reliable and engaging learning environment for students. It gives teachers and students 24/7 access to classroom materials and documents, which are automatically saved and backed up in the cloud. There is nothing to install on desktop computers, and safeguards ensure online privacy and dependable access.
