Inspiration Maps brings visual thinking and learning to the iPad®. Build knowledge: analyze and organize information, think critically and demonstrate comprehension. Inspiration Maps supports the thinking and writing skills outlined in the Common Core State Standards.

**Visualize your ideas**

With Inspiration Maps, you can easily build visual models such as webs, concept maps, and graphic organizers to aid learning and retention.

- Create webs to brainstorm ideas and analyze information
- Build concept maps to breakdown complex concepts and aid understanding
- Develop cause and effect diagrams, process flows and other visual models to build critical thinking skills
- Use built-in graphic organizer templates, such as Cause and Effect or Character Comparison, to guide thinking

**Organize for writing or studying**

Use visual diagrams or written outlines to capture ideas and take notes. Inspiration Maps turns static outlines into dynamic, rich writing structures.

- Easily rearrange items to create a logical flow
- Add notes to any item to capture additional data or expand ideas
- Study in Diagram or Outline View—choose the format that’s best for you

**Prompt ideas and inspire projects**

The visual learning and thinking tools in Inspiration Maps support projects from inception to final report.

- Brainstorm ideas and select a topic using visual maps
- Record facts and data by adding notes and subtopics
- Flip into Outline View to organize, structure and start first drafts

**Grades 6-12**

Helps build critical thinking and literacy skills in any subject
